

ALL

6. Predict the output of the following snippet.

A two dimensional array A is declared as `int A[4][2]={0}`.
What values would be printed after execution the following statement

```
printf("%d",sizeof(A));
```

Assume g++ compiler

Pick **ONE** option

☐ 4☐ 8☒ 32☐ 16

[Clear Selection](#)

7. Find the Output

Guess the output
`#include <stdio.h>`
`int main()`
